EDUCATION

Shanghai Jiao Tong University (SJTU), Shanghai, China 2026 – 2029 (expected)
M.S. in Computer Science (CS), School of Computer Science

Shanghai Jiao Tong University (SJTU), Shanghai, China 2022 – 2026
B.Eng. in Information Security (IS), School of Computer Science

B.Eng. in IS and M.S. student in CS, both advised by [Prof. Sun Shixuan](#) at [EPCC Lab](#).

RESEARCH INTERESTS

My research interests lie in **high-performance computing**. During my undergraduate studies, I worked on **graph computing**, particularly its integration with **serverless computing**. Currently, I am interested in high-performance LLM systems (**LLMs**), especially in **high-performance kernel design**.

PUBLICATION

FaaSBoard: Efficient Graph Processing with a Disaggregated Architecture on Serverless Services. Yushi Liu*, **Yikang Ruan***, Letian Ruan, Zijun Li, Sen Gao, Weihao Cui, Shixuan Sun, Quan Chen, Shuo Quan, Jie Wu, Bingsheng He, Minyi Guo. SIGMOD 2026. [Paper](#) / [Code](#)

We introduce FaaSBoard, a graph processing system with a disaggregated serverless architecture, which decouples data loading, computation, and communication, for better computing performance and cost efficiency. We develop FaaSBoard fully on AWS, using AWS Lambda, AWS Fargate, and other cloud infrastructure.

HONORS AND AWARDS

Outstanding Bachelor's Thesis Award of the School of Computer Science, awarded to the top 3% of undergraduate students! 2026

Gold Award of the 2024 China International College Students Innovation Competition Shanghai Division. 2024
